

Medical Product Suppliers

Supra-Shield® for unsurpassed EMI Performance, Xtra-Guard®, Xtra-Guard® Flex Cables, Xtra-Guard® Flex Mini Diameter, Hook-Up Wire, Heat-Shrink Tubing

Cables custom designed using SuperFlex, FluoroFlex, or SiliFlex wire because of their small size and extreme flexibility.

PTFE: Multi-Lumens, Thermoplastics: Single Lumen Radiopaque and Non-Filled, Component Assembly and Secondary Operations Taper Tipped Dilaters

USP Class VI-shrink tubing, flexible, lubricious, exceptionally strong high abrasion and cut-through resistance, self-sealing and adheres without adhesives.

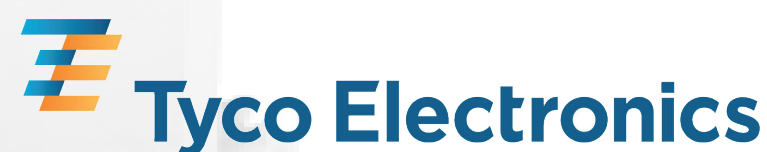

Custom manufacturing house that takes a customer's concept from design to delivery. Developing, testing and manufacturing high-performance wire and cable assemblies.

SurePath™ 151, SurePath™ 252, BioPath, Bubble or Transition Tubing, Cardiovascular Tubing, Microbore Tubing, Multi-Lumen Tubing, IV Tubing

Single & Multi Lumen Tubes, Capillary, Convolutd & Corrugated Tubes, Formed, Flared & Flanged Tubes, Heat Shrink, Profiles, Radiopaque, Skived PTFE, Lower Porosity, Smoother Surface.

Altera Medical-Grade, USP Class VI, MT1000, MT2000, MT3000, MT5000, MT6000, MT-FEP, MT-LWA, MT-PBX

Designer and Manufacturer of a complete line of electrical insulating sleeveings, (braided fiberglass) both coated and uncoated, and tubing (extruded PVC), meeting military, UL & CSA requirements, including flame retardation.

PTFE Sub-Lite Wall® Tubing, FEP Heat Shrink, Aeos™ -ePTFE Tubing, Multi-Lumen Tubing, PTFE & FEP Heat Shrink, Flared Tubing
