

**WORKING TOGETHER TO PROVIDE SEALING SOLUTIONS FOR THE SOLAR INDUSTRY**

Insulate, seal and protect are the key requirements in high volume or specialized applications. DSG-Canusa’s heat shrinkable products are approved to UL, CSA and Military specifications. We are ready to work with you to qualify or design heat shrinkable products to match your unique requirements.

SPECIALTY HEAT SHRINK

**CPA 300**

ADHESIVE LINED POLYOLEFIN TUBING IDEAL FOR APPLICATIONS WHERE EXCEPTIONAL FLAME RETARDANCY & ENVIRONMENTAL SEALING CAPABILITIES ARE REQUIRED.

- 3:1 SHRINK RATIO
- APPROVED TO UL 224, CSA C22.2 No.198.1 & SAE-AMS-DTL-23053/4, CLASS 3

**DERAY® V25**

DIESEL RESISTANT ELASTOMERIC TUBING DESIGNED FOR CABLE PROTECTION WHERE RESISTANCE FLUIDS & CHEMICALS IS CRITICAL.

- 2:1 SHRINK RATIO
- MEETS SAE-AMS-DTL-23053/16, VG 95343 PART 05 TYPE & DEF STAN 59-97 TYPE 6A

**DERAY® KY 175**

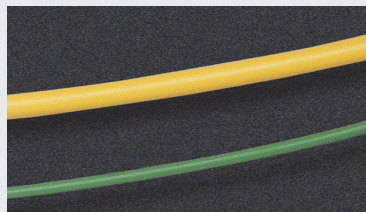

TRANSPARENT PVDF TUBING IDEAL FOR ELECTRONIC & MILITARY APPLICATIONS REQUIRING PROTECTION & SEE THROUGH INSPECTION IN AGGRESSIVE ENVIRONMENTS.

- 2:1 SHRINK RATIO
- APPROVED TO UL 224 VW-1, CSA C22.2 No. 198.1, SAE-AMS-DTL-23053/8, DEF STAN 59-97 ISSUE 3 TYPE 3A, AMS 3632

SINGLE WALL HEAT SHRINK

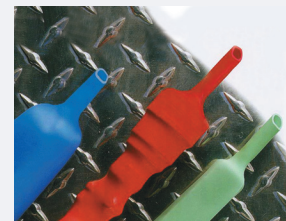

**CPX 100**

FLEXIBLE, FLAME RETARDANT MULTI-PURPOSE POLYOLEFIN TUBING FOR ELECTRICAL INSULATION & STRAIN RELIEF.

- 2:1 SHRINK RATIO
- MEETS UL 224 & MIL-DTL-23053/5 CLASS 1 & 2

**CPX 300**

THIN WALL HIGH SHRINK RATIO CROSS-LINKED TUBING IDEAL FOR COVERING IRREGULARLY SIZED OBJECTS.

- 3:1 SHRINK RATIO
- MEETS UL 224 & MIL-DTL-23053/5 CLASS 1 & 2, CSA C22.2 No. 198.1 & DEF STAN 59-97 TYPE 2A

**WHO IS DSG-CANUSA?**

- One of the world’s largest heat shrinkable tubing manufacturers.
- Globally-renowned products focused specifically on the: Electronics, Electrical, Automotive, and Communications Market
- DSG-Canusa is a ShawCor Company that supplies both heat shrink and cold applied solutions.

**WHO IS LAPP TANNERHILL?**

- Lapp Tannehill stocks a full line of wire, cable, and wire management products for both manufacturers and sub-assemblers throughout the solar industry.
- Lapp Tannehill offers value added services such as custom re-spooling, striping and dyeing of wire, twisting, printing, and tubing processing.

## DSG-CANUSA, A GLOBAL SUCCESS

Founded in 1972, DSG-Canusa has grown to become a leading global manufacturer of heat shrink products. With five factories across North America, Europe and Asia, we produce products for customers in the electrical utility, automotive, electronics and communications market.

We offer a specialized range of heat shrink products including thin, medium and heavy walled tubing, sleeves and molded products. Our products adhere to stringent industry specifications such as: IEEE, RoHS, UL and CSA.

Each of DSG-Canusa's products are engineered to insulate, seal and protect our customer's manufactured goods.

*There's no end to what we cover.*

## LAPP TANNEHILL, 50+ YEARS OF EXPERIENCE

Lapp Tannehill (a LAPP Group Company) has been distributing wire and cable related products since 1958. With over 50 years of wire and cable experience, we offer our customers a one stop source for their wire, cable and tubing needs. Our headquarters and main distribution center is located in Savage, MN. An additional distribution center is located in Las Vegas, NV, allowing us to ensure our customers a quick, same day shipment from either location.

Lapp Tannehill stocks an extensive inventory of heat shrink products from DSG-CANUSA, and offers tubing cutting, printing, and kitting services.

Look to Lapp Tannehill for same day shipments on a broad range of products from DSG-CANUSA tubing.

### OUR MARKETS

#### Electrical Utility

Heat shrink & cold applied, low & medium voltage solutions for the electrical utility industry.

#### Automotive

Complete solutions for automotive applications including splice sealing, water blocking & mechanical protection.

#### Electronics

Single and dual wall heat shrink tubing used for protection of electronic & military wire harnesses.

#### Communications

Unique sealing solutions for broadband communications in hard line coax, fibre systems & wireless infrastructure.

*We are ready to work with you to qualify or design heat shrinkable products to match your unique requirements.*
