

Heavy-Duty Retractable Electrical Light and Power Cord Reels

CCI's heavy-duty industrial-grade spring retractable electrical and power cord reels are ideal for putting light and power where needed with quick retraction and convenient storage. They are suitable for many industrial and commercial applications where portable electrical power and hand-held lighting is required.

These versatile cord reels make cord handling safer and more efficient while extending the life of the cord and improving the work place. OSHA's "Fall Prevention Tips" include, "Practice good housekeeping and keep cords out of walkways or adjacent work areas." Spring retractable cord reels meet OSHA recommendations by providing the tool needed to improve work place efficiency and safety.

Features & Benefits

- All steel construction is rugged and durable; providing maximum structural strength
- Long-life high quality drive spring is enclosed for protection against the environment
- A baked-on powder coated finish on steel components provides maximum corrosion resistance
- Adjustable guide arm allows reel to mount on ceiling, wall, bench or floor
- Latching system allows desired length of cord to be maintained outside of reel
- Supplied with premium electrical cord and ready to use pre-installed accessories

Applications

- Industrial and manufacturing electrical power tool and equipment
- Automotive and fleet service facilities for both power and light
- Maintenance facilities of all types
- For use indoors (dry environments)

Constructions

- Reel frame is stamped with stiffening ribs and forms; then robotically welded
- Stamped steel reel cable spool has angled edges to protect cord and provide additional strength
- Highest quality spring steel drive spring has several free coils in the center; forming a smooth radius that engages the spring arbor for maximum performance and life
- Premium quality, highly flexible, long-life electrical cord is ideally suited for use on a reel
